The following Communication was received from the Governor
Executive Chamber
Olympia Dec 14. 85.

To the Legislative Assembly.
Gentlemen.

I herewith transmit a report
from Explorer Commissioner of the Territory to the North Central and South
American Exposition at New Orleans. The request of the Commissioner seems
to be reasonable and just I have not yet appointed a Commissioner to the American
Exposition of London but will do so in the event that the Legislative Assembly shall
make an appropriation sufficiently large to cover the expense of such
Commissioner. If appropriation be made I suggest a provision for deposit of all
monies received and disbursed by the Commissioner with accompanying vouchers
The opportunity for forwarding the exhibits from New Orleans Exposition at its close
to the London Exposition at its opening is one that merits special attention no money can
be more beneficially appropriated at present than to be judiciously and faithfully used in making known
to the World our resources and the bringing immigrants and capital to the Territory
Respectfully
Watson B. Squire

On motion of Mr Jacobs the Governors Communication and accompanying documents were referred to Com on Federal Relations with instructions to report by Bill.

Reports from Standing Committees

Mr President

CB 2 Your Committee on Judiciary to whom was referred
 Entitled an Act to amend the Code of 1881 and to repeal section
 349 as well as the amendatory act of Nov 13. 83,
 Have had the same under consideration and recommend its
 passage with a few verbal amendments.

J. Jacob, Chairman
 H. B. Isaac,
 J. B. Reavis.

Mr President

CB 20 Your Committee on Judiciary to whom was referred
 Entitled an Act relating to Mortgage on personal property.
 Have had the same under consideration and report that the Bill
 proposes to have Sheriffs make full returns of proceedings on sale of
 personal property under order of sale under Mortgage of personal
 property and proposes to have Sheriffs do what every careful Lawyer
 now has done we think the Bill a good one and therefore recommend
 its passage.

J. B. Reavis
 H. B. Isaac
 J. Jacob.

Mr President

CB 10 Your Committee on Judiciary to whom was referred
 Entitled an Act to locate for 10 years County seats in certain counties
 Have had the same under consideration and recommend the passage
 of the same.

In the opinion of a majority of your Committee the principle announced
 in the body of the Bill is a just and equitable one, it is a basis
 of repose and will produce a cessation of neighborhood discord.
 The constant agitation of the question as to where the County seat of a
 County should be, unsettles values prevents needed improvements
 and foments constant discord, in the white heat generated by
 constant agitation of such a question public air is consumed
 Democracy and Republicanism become absolute words it is all the
 absorbing and paramount issue, men are elected or defeated
 because they are for or against a certain place, then again a
 vote of the people ought to carry with it the elements of finality for a reasonable
 time at least, what that time should be is fixed in the Bill at ten years
 the people vote upon the question after a full and exhaustive discussion
 they are on the ground, understand the situation and are prepared
 to weigh fully every local fact and every geographical consideration
 bearing upon the question.

They know the topography of the County the accessibility of any given
 place and take all the facts into consideration before they
 cast their votes. They are usually not only thoroughly aroused but
 completely informed the result of their vote ought to mean something
 it means that the place selected is the proper place for the County
 seat for a reasonable length of time. Indigence ought not
 to be viewed by the Legislature Assembly within that time then are the
 better judges of the facts.

It is with the intent or design of the Bill to prevent the Legislature from

the County seat was located by the vote of the people or by legislative act to take away or prevent or interfere with the right or authority of the Legislature to relocate the County seat of any County whenever such relocation is made necessary by the removal of the Town or the want of proper water supply or for any other good and sufficient reason or cause of such a radical and satisfactory character as to warrant such relocation. The simple object of the Bill is to say to the permanent residents of the County that they shall have peace for a definite length of time.

Jacobs,
Chairman
H. P. Bass.

Minority Report

Mr President

CBW Your Committee on Judiciary to whom was referred an Act to locate for 10 years the County seats in certain Counties have had the same under consideration and is compelled to disagree with the majority who recommend the passage of the Bill and respectfully presents to the Council the following reasons why the Bill should not pass.

- 1st Ten years is too long, as a fixed rule, to deny a County, so disposed, the right to determine where it desires to have the County seat. Our Territory is rapidly settling with people and its centres of population and business are frequently changing one year in the history of many Counties is equal to five years in the Communities of the older States. Public business may require a change of County seat and each case must be examined on its own merits.
- 2nd It would be as reasonable to resolve that we would not hear and determine any other question affecting public interests because it is troublesome and require patient investigation as to say we will not for ten years allow the people of a County to be heard on the proposition to relocate their County seat.
- 3rd The Bill proceeds upon the principle that the County seat may become a vested property right that is, ^{that} some municipality in the County may have its property values increased or diminished by the County seat and that the people of the whole County can not determine for themselves where they will attend to their public business. This submitted that the property interests of rival towns can not be allowed to decide what the interests of the whole County require or control the wishes of the whole body of the people of the County.
- 4th Several Bills for the location and relocation of County seats are now pending in the House and have been reported here. This will be understood to be a disposition of at least one of those without a hearing and not upon the merits.
- 5th The proposed law would be vain legislation as the Legislature has in it by the Organic Act the right and power to locate or remove location of County seat question and this law would not be of any other legislative assembly.
6. The Bill denies to the people of a County the right to decide for themselves the question which affects the

interests and is in violent opposition to the principle of local self government and against the democratic doctrine that a majority shall rule.
For the above reasons the undersigned recommends that the Bill do not pass.

Reports from Standing Committees.

Mr President.

C. B. 5 Your Committee on Judiciary to whom was referred
An Act to amend Chapter nineteen (19) of the
Code of 1881. Have had the same under
consideration and report as follows:

The object of this bill is to facilitate the taking
of cases from the District to the Supreme Court
of the Territory. It covers actions and proceedings
at law, actions and proceedings in equity and
actions and proceedings in admiralty.

The principal object of the bill is to have all of
the exceptions taken to the decisions of the Court
or the rulings of the Judge thereof appear of
record. There is another class of exceptions taken
to the rulings of the Court; principally the admission
or rejection of testimony during the progress of
the trial, which are provided for by a statement,
which statement is made a portion of the entire
bill of exceptions.

C. B. 6 This bill is intended as a complement to
The two bills to be rightly understood ought to be considered
together, C. B. No 6 refers frequently to this bill.

There can be no real simplification of the law for
taking cases to the Supreme Court without providing
fully and distinctly for the manner in which
exceptions to the rulings of the Court can be preserved
authoratively.

Your Committee is of the opinion that if these
two bills are adopted the cases hereafter appealed
from the District to the Supreme Court will be
heard upon their merits and not go out of Court on
technical objections. The right to have a cause
reviewed in the Supreme Court is an important
and valuable right and the enjoyment by parties
litigant ought to be made sure and certain. The
right is deemed so important that it is secured by
provisions of the Organic Act of the Territory.

Your Committee recommend the substitution of the printed bill for the original bill with certain valuable amendments that appear on the face of the printed bill. Your Committee also recommend the adoption of two additional sections as follows.

Section 7. All acts or parts of acts in conflict with this act are hereby repealed.

Sec 8. This act shall take effect from and after its passage and approved by the Governor.

O. Jacobs, Chairman
J. B. Reavis

Report of Committee adopted.

Report of Committee on Judiciary

Mr President

C. B. 6 Your Committee on Judiciary to whom was referred an act for the removal of causes to the Supreme Court of Washington Territory, have had the same under consideration and report as follows: In addition to recommending the passage of the same would state that the bill is a revision of the law for the taking of a case from the District to the Supreme Court of the Territory.

The design of the bill is to clear away the doubts and uncertainties that have heretofore attended the taking of a case to the Supreme Court of the Territory. The bill in many of its provisions, refers to C. B. No 5. The two bills to be correctly understood ought to be read and considered together.

Bill No. 6 provides how a case can be taken to the Appellate Court, and is designed to be full certain and complete in its provisions. It covers actions and proceedings at law, actions and proceedings in equity, and actions and proceedings in admiralty, in distinct and separate provisions.

Heretofore the legislature of the Territory has not seen fit to provide a mode of appeals in admiralty, and the Courts have vibrated in their practice, from the adoption of the provisions of the Statutes to the ancient and technical provisions of the civil law. There has been a great state of uncertainty and confusion in taking admiralty cases to the Appellate Court; this is remedied in this bill.

The provisions for taking a suit in equity to the Supreme Court has separated from those at law.

The provisions in regard to bonds and their penal sums have been made certain and specific, so far as the nature of the case would admit. The Law of Statement has been simplified, enlarged and made definite. The duties of the Clerk of the District Courts in regard to appeals, have been defined; and what is a transcript is fully and clearly defined in this bill.

Your Committee are of the opinion that the adoption of the bill would secure with certainty to suitors, the enjoyment of a right secured to them by the organic act of the Territory. Your Committee would recommend the substitution of the printed bill for the original bill; would also recommend certain valuable amendments adopted by them, and found incorporated in the printed bill.

Your Committee would also recommend the adoption of two additional sections to wit:
Sec. 18, All acts or parts of acts in conflict with this act are hereby repealed.
Sec. 19, This act shall take effect from and after its passage and approved by the Governor.

Message from the Governor
 Washington Territory
 Executive Office
 Olympia Dec. 17 1885

To the Legislative Assembly
 Gentlemen.

I herewith transmit a copy of a letter just received by me, from the Secretary of the Treasury in reply to a memorial addressed to the President of the United States by the Tacoma Chamber of Commerce which was sent to me to be indorsed and forwarded. I added my earnest approval of the statements made in said communication, and forwarded the same to Washington on the 6th of Nov. In as much as the enforcement of the Restriction Act is of great importance to the people of this coast and especially so to the people of Wash. Terr.

And as the Secretary states that the appropriation heretofore made by Congress for carrying out the requirements of said act is entirely exhausted

I deem best to submit the matter for your information with the suggestion that you memorialize Congress on this subject.

Very Respectfully

Watson C. Squires
 Governor.

Treasury Department
 Office of the Secretary
 Washington D.C. Dec 9th 1885

Hon Watson C. Squires
 Governor of Washington Territory
 Olympia W. T.

Sir,

I am in receipt of your letter of the 6th ult. addressed to the President and referred by him to this Department which enclosed a petition from the Tacoma Chamber of Commerce concerning the enforcement of the so called Chinese Restriction Act. (23 Stat. p. 115) The petitioners state that large numbers of Chinese laborers have stolen into the Territory ^{from the} neighboring province of British Columbia, in violation of the said act and that the expected discharge of thousands of other Chinese laborers from employment on the Canadian Pacific Rail Road renders it probable that many of them will unlawfully enter the United States, unless extraordinary measures are taken on the part of the Government to prevent it. In regard to the matter I have to say that the appropriations heretofore made by Congress for carrying out the requirements of said act is entirely exhausted.

And that at present it is impracticable for the Department to take any measures other than those already taken to prevent the landing and entrance of unauthorized Chinese laborers in the United States Territory. These measures consist in the Collector of Customs and other Federal officials being instructed to take all practicable precautions to prevent the entrance into the United States of unauthorized Chinese laborers, and also if any such persons are found in our Territory to take the necessary steps for their prosecution before the Courts and for their return to the Country whence they came but with the understanding however that no expenses are incurred by such officers for which the Government may be charged.

Very Respectfully
D. Manning
Secretary

Report of Committee adopted

Mr President

C. B 44

Your Committee on Enrolled Bills to whom was referred
An act to promote habits of temperance and to prohibit the
practice of treating, have had the same under consideration
and recommend that the bill do pass. Your Committee think
the custom of treating, a pernicious custom and detrimental
to the good morals of our young men and has a tendency
to create bad habits and an appetite for spirituous liquors
that is liable to lead to poverty and degradation.

E. C. Ferguson
Chairman.

Mr President

Your Committee on Corporations to whom was referred
H B 121 An act to amend an act entitled "An act to amend an act entitled
An Act to incorporate the city of Goldendale" approved Nov 20
1881, Have had the same under consideration and recommend
that it be amended by striking out all subfert matter from
the beginning of the 21st line on page 3 to the words "Justice of the

"Peace" in line 21 of page 5 and substituting therefor the words "by the payment of the same fees and costs, penalties and interest for and on city taxes and for the collection thereof, as that prescribed by existing laws for Territorial and County taxes, and the effect of sales, deeds and the right of redemption shall be the same." O. Jacobs.
Chairman.

Mr President

Your Committee on Judiciary to whom was referred "An act Changing the place of holding the District Court heretofore held at La Borne"

Have had the same under consideration and we find the following facts: This bill was introduced by the Councilman representing Skagit and other counties in this Body, by request. The bill was founded on a petition sent to this Body, signed by five hundred and eighty one (581) citizens of Skagit County. There has been a remonstrance presented, signed by six hundred and thirty eight (638) residents of said county.

We further find that the Court has been located at La Borne since 1877. At the time it was located at La Borne, Skagit County was a portion of Whatcom County. The last Legislature divided Whatcom County, cutting off therefrom what is now known as Skagit County. The city of Whatcom was the county seat of Whatcom County up to the time of the division and still remains so. La Borne was fixed by the act of the Legislature as the place for holding Court, because first, of its accessibility by steamer from all points, and secondly, because the larger farming, commercial, and other interests of Whatcom County were centered at La Borne.

We find from the record before us that the number of remonstrators exceed the petitioners. On the record therefore, we are compelled to find that a majority of the people of Skagit County are opposed to the removal of the Court from La Borne to Mount Vernon, and we therefore recommend that the bill do not pass.

Also

An act to repeal an act relating to the Auditor of Stevens County Washington Territory, and recommend that the bill do pass.

Also

An Act to repeal an act relating to the Treasurer of Stevens County Washington Territory, and recommend that the bill be amended by striking out the figures "2086" in Section 7, and inserting in lieu thereof the figures "2751"

With the above amendment Your Committee recommend that the bill do pass.

O. Jacobs.

Reports from Standing Committees

Report of Committee on Corporations

Mr President

HB 76 Your Committee on Corporations to whom was referred
Entitled "An act to revise and amend the Charter of the City of
Seattle," have had the same under consideration and recommend
1st that the word "purchase" be inserted after the word "or" in the
2nd line of Sec 5; 2nd that the words "graveling" "planking" and
"improving" in the second line of Sec. 7 be stricken out.
3^d that after the word "Macadamize" in the 2nd line of Sec. 8 the
words "gravel" "plank" and "improve" be inserted. 4th that the last
two lines of same section be stricken out in-as-much-as we
consider it a dangerous power to confer upon the Council of any City
viz: The improvement of streets &c without the consent of the Majority
5th That Sec. 13 be stricken out as it grants the City Council
authority over matters outside of the City limits.
6th That some provision be made in Sec. 22 relating to the
Liquor traffic and gaming tables so that the City may have power to
control the same in accordance with the provisions of the Local Option
law just past.
7th That the words "Lake Union" be inserted after the words "Bay"
in the 9th line of Sec 27—
With the above amendments the Committee recommend the passage
of the bill.

C. W. Young in Chairman
Nathan Gabel
H. P. Isaacs.

Report of Committee on Ways & Means.

Mr President

H B 51

Your Committee on Ways & Means to whom was referred an Act to repeal an act entitled "An Act to provide for the levy and collection of taxes upon the property of railroads in this Territory" respectfully report:

That they have given the subject matter of the bill all the consideration their divided and limited time has permitted.

The repeal of the law of 1883 in the absence of other legislation at this session will leave the Territory without any special law regulating the taxation of said railroad property. The act

approved November 28, 1883 repealed all acts or parts of acts in conflict with that act. This resulted in the repeal of Sections 2850, 2851, 2852, 2853, 2854, 2855 of the Code of this Territory.

The only then-existing statutes regulating the taxation of railroad property, of course under those circumstances such repeal left the matter as though no statute had ever been enacted. The proposed repeal will then leave the Territory without any special law whatever, regulating the assessment and taxation of this species of property, and would relegate the whole matter to the general law regulating the collection of Territorial and Municipal revenue.

Such a result could not fail to bring with it disastrous consequences, both to the people of the Territory and the railway companies.

A railway company owning or operating a property so entirely dissimilar from any other, both in its general and special features, requires a law peculiar to itself, one especially adapted to the anomalous character both as to the ascertainment of values and the collection of tax. Running through several counties each independent of the other in its municipal jurisdiction and action, and the taxing authorities of each entertaining diverse ideas as to the value of the property (under the most favorable circumstances, difficult to determine) serious complications, expensive litigations and uncertainty in the collection of the revenue would be inevitable. The experience of all the older States has taught their legislators, and it has become a subject of almost universal judicial recognition and decision that a railroad can only be taxed as a whole, (at least that portion lying within a given State or Territory) either upon the cash valuation of its property or upon its earnings, and then make an equitable distribution of the proceeds among the counties through which it runs.

"Dusty on taxation" a conceded authority upon the subject of which it treats at page 392, lays down the well established doctrine.

He says "a railroad from one end to the other is an entirety. Fragmentary taxation or sales might be unjustly vexatious or injurious to the owners, might prevent the destination of the road and disturb the public use and interest. To avoid such evils the law treats a railroad and all its appurtenances as one entire thing, not legally subject to coercive severance or dislocation. In that consolidated character it must be taxed for State revenue and cannot be a fit subject for local taxation by the

separate Counties through which it runs.

To repeal the existing law and leave the matter to the uncertainties, embarrassments, impossibilities and litigations that are certain to follow, would in the judgment of your Committee bring about such a chaotic condition of things as to railroad taxation that no member of this body could successfully defend or explain.

It certainly should be no objection to the act sought to be repealed that it provides a different method for collecting the tax from railways, if reason or experience has demonstrated that it is better to accomplish the desired result, than the ordinary methods, especially if such experience has proved that the adopted method has produced a favorable result speedily and effectively, and, provided, that no fundamental principle of constitutional law or action has been infringed. That no such principle has been violated in the method adopted by the

act of 1883, has been frequently decided by the highest courts in this country, and the very act in question has been judicially approved by one of the most eminent judges of our Territorial Court.

That the gross earnings system has worked efficiently and inexpensively wherever it has been adopted cannot be successfully questioned. Whether the rate per cent. established by the act of 1883 is sufficiently large to bring railway property to an approximate valuation of other property, your Committee have not sufficient data at hand, nor have they had sufficient time to ascertain. But it is a fact easily elicited and established and when ascertained can quickly be made the subject of appropriate legislative action. The law itself and the methods under it are simple, effective and certain and in a young and comparatively undeveloped country like Washington Territory, the receipts from railway taxation will increase annually in a ratio that will soon produce a very large revenue. In the States where it was adopted, in an early day in their railway developments and which produced only a few thousand dollars at the start, the revenue has swollen by the increase of business and consequent earnings to hundreds of thousands of dollars, and in some instances it has nearly sustained and paid the entire expenses of a State government, and thus relieved other property from the burden of taxation. It will be remembered that by the method under consideration, the tax is fixed and certain for an indefinite time and should it become in time sufficient to pay the entire expense of the Territorial government it is a burden from which the railway cannot relieve themselves, except by legislative consent.

It is only a prerogative, but an imperative duty that wise legislation will recognize to devise and formulate such laws as shall be best adapted to the existing state of facts. A law that would be applicable and equitable in its operation in New York might be burdensome and oppressive in Washington Territory.

So also one that might in a few individual cases produce a hardship, must be endured if the public interest requires it. But even in such instances time and experience will mitigate, if not entirely remove the seeming injustice. The laws

The different States regulating the taxation of railway property have been the subject of investigation by the ablest minds of the country embracing nearly every class of pursuits and have become comparatively well established. Their provisions differ more or less in their details but all are mainly uniform in their practical operation. The two methods adopted, viz: The valuation of the property as a whole and the equitable distribution among the counties upon the line of the railroad and a certain per cent. tax upon the gross earnings have become recognized everywhere in this country both in courts and legislature, as the most just, practical and efficient plan that can be devised.

The Territory of Washington is in its infancy in development, and particularly is this true of its railroad interests. While much has been accomplished within the last five years, it is hoped and expected that many more miles of railway will be constructed within the next few years. Such a policy should prevail as to encourage and invite capital to invest in new enterprises rather than that will intimidate and repel it. The clause that is raised by the few for rigorous, hostile legislation against railway corporations, if heeded, will inevitably be disastrous to the material interests of the Territory. The relations of such corporations with the people should be of the most friendly character as their interests are reciprocal. The antagonisms that have existed in older communities, which resulted in revengeful and hostile legislation, have become reduced and to a great extent removed and such legislation has given way to one of a more pacific character - more just to the railroad and beneficial to the public. A controversy with an element so potential and serviceable to the public necessarily brings with it miscommence, loss and irritation.

Aside from these considerations of public policy, there are more serious questions involved, growing out of the peculiar situation and legal status of the principal railway companies from which the largest revenue is derivable. The Northern Pacific Railroad Company is incorporated by Congress. So far as the powers and privileges of that body extend, they are absolutely above and beyond the jurisdiction of any Territorial legislation. Its exemptions are beyond the reach of the Territorial legislatures. Taxation, of course, is one of the incidental and necessary powers of local government and is "a rightful subject of legislation," both as to the methods to be employed and the subject to be taxed. But where Congress in the exercise of its superior jurisdiction has regulated the mode, or conferred a privilege, whether it shall consist in exemption from taxation or otherwise, this body has no power to change or modify it - much less, to take it away. By the act of incorporation of this company the right of way through this Territory was exempted from taxation. In section two of the act it is provided as follows: "Said way is granted, to said railroad to the extent of two hundred feet in width on each side of said railroad when it may pass through the public domain, including all necessary grounds for station buildings work shops, depots, machine shops, switches, side-tracks, turn-tables and water stations, and the

right of way shall be exempt from taxation within "the Territories of the United States." This provision of exemption has already been the subject of judicial consideration, and it has been decided that it includes the road-bed and all property of a permanent character upon it; indeed it is a proposition that no one can successfully controvert that a statute exempting land, exempts every thing upon it that is attached thereto. This company owns and operates within this Territory three hundred and twenty miles of road. Its right of way is four hundred feet wide. Upon it are its road-bed, its Station houses, machine shops, water tanks and other property used in its business. According to law every item of this property is beyond the reach of any taxing power because Congress, in its act of incorporation, contracted with the company that if they would build the road, open up what was then practically a vast wilderness, and confer upon the government certain benefits and privileges named, their property should be exempt from taxation within the Territories of the United States."

Turning then to its personal property, its rolling stock and equipments, we are met with a practical difficulty of the greatest moment. Upon that portion of the line east of the mountains the rolling stock is transitory, continually moving, one day within the Territory, the next in Idaho, and then in Montana or Dakota or Minnesota. At some periods there may be within our territorial jurisdiction, not more than one hundred cars, at others, five hundred. But aside from the impossibility of ascertaining, under existing law, what and how much of the rolling stock is taxable within the Territory, we are met with the legal proposition that it is not taxable here at all; that it is only taxable at its principal place of business or domicile of the Corporation.

Referring again to "Desty on Taxation" page 395, the author says: "And the personal property, including its franchise rolling stock and corporate shares of non residents is taxable at its principal place of business or domicile of the corporation. The principal place of business of this company is at St. Paul, the same fact exists as to the personal property and rolling stock of the Oregon Railway and Navigation Company, not only is its principal place of business but the actual domicile of the corporation is in Oregon, if these facts be true and they are, sustained by the most eminent legal authority it would be in the judgment of your committee not merely an act of stupendous folly but a gigantic crime, to plunge the Territory into such a chaos of doubt, litigation expense and loss unless the exigencies of the case imperatively demand it. That such exigencies exist your committee do not believe, on the contrary they find that under the operation of the act of 1883 the taxes from Railway companies have been paid into the treasury promptly without a dollar of expense and nearly three times greater than amount than under the old system of taxation, as an illustration the Northern Pacific Company paid for the year 1884 the sum of \$37,751. At no year prior to that time had the company ever paid to exceed \$13,200. The reason and necessity for the change of a law that has produced such a result as this must be demonstrated with a clearness that should admit

of no doubt, but is the act of 1883 just towards other property owners in the Territory? as before stated your Committee have not had sufficient data upon which to determine whether the percentage would bring the valuation of Railway property up to other property values or whether it exceeds them. These are matters for the

consideration of future legislation. All we claim is that its results have been more advantageous to this Territory than under any other system and that the advocates of its repeal have

presented no plan or system that is not involved in uncertainty and great complications. That the statute is perfect will not be claimed experience will doubtless suggest appropriate amendments but your committee do assert with confidence that the basis of a system is established simple and economical and which in time will produce a large certain revenue, and that considering the many serious legal questions involved in attempts to tax the property according to the old methods they have no hesitation in saying that the repeal of the act in question would precipitate upon the people of the Territory a controversy interesting and profitable to lawyers but

detrimental to the public welfare. The early completion of the Cascade division of the Northern Pacific Railroad, the opening up of quick and easy communication between Eastern and Western Washington, the large traffic that will result the completion and operation of nearly two hundred additional miles of Railway will so increase the gross earnings that at an early day at least one hundred percent more of revenue than realized in 1884 can be confidently expected from this Company alone. The extension of existing lines, the building of new ones, will increase the revenue to an extent that will be eminently satisfactory to all except those who from motives of personal interest would not be satisfied with anything. The tax after 1888 is increased to three per cent and this addition with the increased traffic and earnings will pour into the treasury a vast revenue.

Your Committee are of the opinion that some minor amendments should be made the act of November 28th 1883, limiting the operations of the law to railways engaged ~~strictly~~ in the business of transportation of passengers and freight, excluding therefrom tramways and such other ways as may be built and used only as an adjunct to some other business. They also believe that Section five should be amended or stricken out, accordingly they have prepared a bill inserting amendments for the purposes above mentioned, which they will introduce should the recommendation of the Committee as to the disposition of the bill under consideration be adopted by the Council.

Your Committee report House bill No. 61 back to the Council with the recommendation that its further consideration be indefinitely postponed.

Report of Committee on Ways & Means

Mr President

Your Committee on Ways & Means to whom was referred
 CB 165 Entitled an act to provide for the assessment and collection of taxes on the equitable claim and interest in certain lands have had the same under consideration and respectfully report that the object of the Bill is to tax lands or certain alleged interests therein which lands among others similarly situated the Supreme Court of United States has decided upon several occasions were not subject to taxation because the title was yet in the government and especially to reach that part of the public domain granted to the Northern Pacific Railroad not yet patented, the preamble of the bill admits and recites that the lands are not taxable and that the legal title to the same is yet in the United States.

It introduces a new and anomalous feature in our revenue laws and if its basis be ~~correct~~ as to the "equitable interests" of the Northern Pacific Railroad Co, in lands to which they have yet no title, the same principle would apply to every Homesteader and Preemptor who has acquired some interest in his claim or entry but who has not yet fully performed all the legal conditions to entitle him to a patent. The first criticism that would naturally arise therefore would be that the provisions of the Bill are not uniform in their character, that they apply a rule and impose burdens upon one class of property owners that they do not upon another class possessing the same species of property and deriving title from a common source.

It is incontrovertable that if the "equitable interests" of the Northern Pacific Railroad Company in lands partially earned but which by reason of the non performance of all the conditions of the grant, they are not yet entitled to a patent, then the "equitable interests" of every other person or corporation should be subjected to the same rule and that they should be made to contribute their ratable proportion of the public burden.

Aside from other obnoxious features of the Bill Your Committee find at the start a constitutional objection in this that it is not uniform in its character, that it is openly discriminating against a class. Your Committee do not believe that any member of this body is so deeply interested in the public welfare that he would impose upon the struggling Homesteaders and Preemptioners a tax from year to year upon the home he is seeking to secure before he gets his title, yet the Bill under consideration in law would have no standing unless its provisions were applied to the same subject matter to all classes of persons. The act of Congress of July 15th 1870 regulating and providing for the survey of the lands of the Northern Pacific Railroad Co. contained the following provisions;

"That before any land granted to said Company by the United States shall be conveyed to any party entitled thereto under any of the acts incorporating or relating to said Company there shall first be paid into the Treasury of the United States, the cost of surveying collecting and conveying the same by the said Company or party in interest."

The Charter of the Union Pacific Railway Co. system contained a like provision and it has been construed by the Supreme Court of the United States upon several occasions, and the performance of those conditions were adjudged by that Court to be conditions precedent, and that until performed, no title passed equitable or otherwise to the grantee; and that, hence all lands subject to such conditions were not taxable. Such a decision has only recently been made upon the Northern Pacific act, above cited, in a case taken from the Supreme Court of Dakota to the Supreme Court of the United States.

Your Committee can but believe that the Bill has confounded "Equitable interests" with "equitable title." No Court or Legislature has as yet gone so far in the taxation of real property as to constitute the assessor a Court, Judge and Jury to adjudicate upon and determine the "Equitable interests" of individuals or corporations in land. The law recognizes no such thing. It lays its strong hand upon the land and that alone, and if it by reason of exemption or otherwise does not respond, its power is at an end. It cannot, and does not, and never did for the purposes of taxation constitute an inferior ministerial tribunal to adjust the fragmentary and fractional interests that may be represented in land.

It does not necessarily follow, that lands derived from the Government are exempt from taxation because the grantee has not received his patent. The patent is the evidence of title but by no means the title itself. The latter arises from the performance of all of the conditions of the grant, and when they have been performed the title passes from the government to the grantee and he holds an "equitable title." The lands held by such a title are taxable because the title has passed from the Government. But so long as anything remains to be done, no title passes and the lands and any interest in them are beyond legislative or judicial regulation, or disposition. So far as the status of the title is concerned, the lands are held by the government as though nothing had been done - nothing earned. They are absolutely the property and

under the control of the government. In all cases of title derivable from the government, the grantee absolutely acquires no "equitable interest" until the conditions of the law or the grant are complied with; for the simple reason that title can only be acquired by strict compliance with the written law and its conditions.

The same thing is true as to entries under the homestead or pre-emption laws. When the requirements of the law have all been observed and performed, whether they consist in the payment of money, the making of improvements or otherwise, the title passes from the government and the lands affected, become taxable. No case can be found in this country where any interest in lands has been taxed so long as the legal title remains in the United States, unless such interest amounts to an "Equitable title" i.e. in cases where the grantee has performed all of the conditions of the grant, and is entitled unconditionally to demand and receive a patent.

Desty on Taxation "page 36 says: "Public land can be taxed only when a patent has issued or when the private proprietor has acquired a "perfect equity."

By these words are meant such an equity that the grantee could apply to the proper tribunal, and without the performance of any other condition or thing enforce the delivery of the patent. Again the same authority says, "That lands held by the United States may be taxed before they have parted with the legal title by issuing a patent, is to be understood as applicable to cases where the right to the patent is complete, and the equitable title is fully vested in the party without any thing more to be paid, or any act to be done going to the foundation of his right."

Taxation of land and interest in land, is directed against land in specie - ~~is proceeding~~ ^{proceeding} in rem, and if the land, for any reason is exempt from taxation it necessarily follows that any interest in it must be. In other words if the whole subject matter is exempt from taxation by what process of reasoning can it be said that a part is taxable? Public policy and the regularity of land titles demands that they shall not be complicated, endangered, entangled or encumbered with the attempted adjustment by inferior, ministerial tribunals of diverse perhaps antagonistic interests in portions thereof. It is for this reason, mainly, that no account is taken of incumbrance by mortgage, judgment or otherwise. It is the land that stands for the tax and if it is not taxable, no interest in it can be.

The rule applies to all titles derivable from the government, whether from Conditional grants for internal improvements or entries under the homestead and pre-emption laws. If the thing which is the subject matter of the tax, is exempt, or non-taxable, all interests therein are similarly affected. An illustration of this principal is found in the exemption laws. In some of the States one hundred and sixty acres of land occupied as a homestead are exempted from execution. The Courts have uniformly held that the proceeds arising from voluntary sale of said homesteads are also exempt because

arise from an object that is exempt. In other words the thing which is the basis and source of an intangible or "equitable interest" characterizes and determines the status of all its connected adjuncts, and fixes alike its burdens and its exemptions. The proposition seems to your Committee too plain to require further argument.

Independently of strictly legal and equitable considerations the Committee believe that the provisions of the bill are hostile to a great interest in our Territory, both in its general scope and details. It is well known that the grants to the Northern Pacific Railroad are the subjects of contradiction and denial by a large and respectable body of the people of the Territory. It is claimed that the Company has no land within its limits; that having failed to comply with the provisions of its charter as to time, that it has forfeited all benefits assured by the grant; and it has already been decided by the Commissioner of the General Land Office that the Company never had any grant upon that portion of its line between Columbia River and Puget Sound. The forfeiture of its entire land grant within the

Territory is being pushed in Congress and out of it, with earnestness and vigor. The result is that vast bodies of land amounting in the aggregate to probably ten millions acres are suspended from sale, settlement and improvement. The contending parties will not be satisfied with any result until they shall have reached the tribunal of last resort - The Supreme Court of the United States - involving the practical withdrawal of the lands for any purpose of revenue or utilization for a period of four or five years. This condition of things will seriously retard the advancement and development of the material interests of the Territory. To further complicate a matter of such vast magnitude and importance with questions and litigations arising from tax sales and tax titles when the main question shall have been determined, and requiring another decade to adjust and settle them, seems to your Committee so highly detrimental to the Territorial welfare as to require an emphatic condemnation. It would be another seriously disturbing element without the accomplishment of any good.

Certain provisions of the bill appear so thoroughly vindictive in their character and intent, that punishment, rather than legislation and the public good was the inspiring purpose. And so far has this spirit developed itself that in the judgment of your Committee it violates some Constitutional principles. It provides among other things, that under certain conditions the claimants of the land cannot have recourse to the Courts to adjudicate upon their rights; violating that well known and recognized rule of Constitutional Law that "no person shall be deprived of life, liberty or property without due process of law." The action and judgment of a County assessor acting even under instructions of a Territorial Legislature, in matters affecting great interests, both corporate and personal, should not and cannot, by any statute deprive the Courts from reviewing and if necessary giving relief. The spirit of such legislation if tolerated is dangerous to the rights of all; and such a manifest

usurpation of Judicial authority as conferred by the fundamental law of the United States, as to excite surprise that it should even have been attempted.

Your Committee report House Bill No 165 back to the Council with the recommendation that the bill do not pass.

Mr President

Your Joint Committee of Conference on HB 76 "An act to revise and amend the Charter of the City of Seattle" Have had the same under consideration and report and recommend as follows: 1st That the House concur in Council amendment to Section 5 of said Bill.

2nd That the Council recede from its amendments to Section 7 of said Bill, by which it struck from said Section the words "graveling, planing"

3^d That the Council recede from its first amendment to Section 8 of said Bill by which it added to said Section in the second line thereof the words "gravel, plank improve."

4th That the Council recede from its second amendment to said Section 8, by which it struck out the following words from said Section's text: "Provided however that in all cases of special assessments under the provisions of this section improvements upon land whether appixed to the same or not shall not be taken or assessed as a part of the land nor assessed at all."

5th That the House concur in the third Council amendment to said Section 8 by which the Council struck out the words "unless authorized at a meeting of the Council by a vote of at least six members in favor thereof." but that in concurring therein, it be with the following further amendment to wit: to insert in lieu of the words so stricken out the

"Unless authorized at a regular meeting of the Council by a vote of all the members present in favor thereof?"

6th That the House concur in Council amendments to Section 13 22, 27, 28, 65, and 71 of said Bill.

Your Committee on Counties to whom was referred "An act to create and organize the County of St. Helens and define the boundaries thereof," have had the same under consideration and we find that there are seven hundred and two petitioners in favor of the formation of a new county and one thousand eight hundred and forty six against it. From the information before us we believe that the seven hundred petitioners are mostly residents of the district designed to be erected into the new county, the remonstrance being from those outside and south of the district.

Clarke County, by this division will be left with about three fourths of the taxable property, and nearly two thirds of the population.

Your Committee believe that if the County of St. Helens is organized it will be in accord with the wishes of nearly all of the residents of the proposed new county.

For the above reasons your Committee recommend that the bill do pass.

Report from Committee on Judiciary

Mr. President

Your Committee on Judiciary to whom was referred
C.B. 131 "An act to amend an act entitled 'An act to provide for the
levy and collection of taxes upon the property of railroad companies
in this Territory' Approved Nov 28 1883" have had the same under
consideration and beg leave to report as follows:

The act approved
Nov 28 1883 commonly called "the gross earnings law," has been
extensively discussed by the people of the Territory. In 1884, after
the law had been in operation for a considerable period, both
the Territorial conventions of the two great political parties of the
Territory pledged their candidates that the law should be repealed
by the present Legislative Assembly. The law was very thoroughly
discussed by the people of the Territory and in nearly every
address made by candidates for election to the Legislative
Assembly, and after such thorough discussion and the implied
and expressed pledges of gentlemen elected to this Assembly the
people of the Territory with full confidence in their representatives
expected and hoped for a repeal of this law. The gross earnings law
of 1883 is plainly in conflict with Section 1994 of the organic act of
Washington Territory. The language of said Section referring to the
subject is as follows: "And all taxes shall be equal and
uniform and no distinctions shall be made in the assessments
between different kinds of property but the assessments shall be
according to the value of the property." The assessment of the
four cent of gross earnings of a railroad is in no sense an
assessment according to the value of railway property. This
feature of the act of 1883 is therefore unconstitutional and void.
Whatever money has been paid by the railroad companies of
the Territory under this law has therefore been merely in the
nature of a voluntary contribution to quiet the public sentiment
of the Territory and avoid the enactment of a just revenue law
by which the companies would be compelled to pay their just
proportion of the taxes of the Territory. Under the

revenue act of 1879 equitable rights and interest in lands were assessed and taxes in the Territory, this first principle of taxation was eliminated from the revenue laws of the Territory in 1881 and after comparative demands from the people of the Territory the act of 1883 was passed at the solicitation of the Railway Companies. All other property in the Territory is taxed, all the Christian Churches all the private schools, property of all benevolent societies and charitable institutions in the Territory are taxed. The popular voice as expressed at the last general election forbid the exemption of any church property in the Territory, that popular voice as heard through the declarations of political conventions of the

Territory, and declarations of gentlemen who were candidates for the Legislative Assembly forbid alike the exemption of Railway property from taxation. but in view of ^{the} fact that on day before yesterday 26th of January 1886 the Council by a ~~tie~~ vote refused

to repeal the act approved Nov 28th 1883 and in view of the grave responsibility that we feel in relation to the assessment and taxation of Railway property in the Territory, we have carefully considered this bill to amend the gross earnings law and

desirous to modify and improve what we consider an inequitable unequal and unconstitutional law, we therefore recommend the following amendments to the bill now under consideration, 1st That the words "In lieu of any and

all other taxes upon any Railroad Company in this Territory operated expressly and solely for the purpose of the transportation of freight and passengers, or upon their equipment and appurtenances" be stricken out and the following substituted

therefor "In lieu of any and all ~~other~~ taxes upon any railroad owned or operated in this Territory expressly and solely for the transportation of freight and passengers or upon their equipment including rolling stock stations and machine shops,

2nd That Section two of the Bill which is Section 5 of the act of 1883 be entirely stricken out and that H.B. 165 now in the Council be passed by the Council in place of said Section 2 stricken out. Your Committee fully understand

that lands granted by the Government of the United States to a railway company and which are earned and yet not patented can not be taxed, but we are equally well

convinced that the equitable interest of a Railroad company in lands earned by construction of its road can be taxed. As a familiar illustration of the taxation of equitable interests in lands we mention the taxation of improvements on public lands made by settlers under the Homestead and preemption

laws also the taxation of mortgages on all kinds of lands. Your Committee is convinced that the bill recommended to be substituted for Section 2 of the Bill will if adopted be valid taxation which cannot be avoided by any Railroad company, with the amendments

here proposed we therefore recommend that the Bill do pass.

HB 138

Minority report of Conference Committee on
An act to provide for the permanent location and construction of a
Hospital for the Insane in Washington Territory at Fort-Stilacoon.

HB 138

Mr President
A minority of your committee of conference on
would recommend that the Council do not recede from its position
on this bill for the following considerations
1st The amendment is a safe-guard to the public purse and
any change in its tenor, so as to make it mandatory upon the
Commissioners as to the material to be used in the structure - would
be altogether undesirable and not in accord with the dictates of
wisdom and true economy.
If the matter is left to the discretion of the Commissioners - they could
acquire information in connection with this subject essential to its
proper solution and not within the immediate reach of your
Committee.
2nd The desire of your Committee has been that the Hospital
should be built of suitable material & in the most economical manner
and your committee believes these objects will be best attained by
allowing the Commissioners the discretionary powers given in the
amendment.
Your Committee would also recommend that Sec. 17 of the bill be
amended by striking out the words "one hundred" and substituting
therefor the words "Seventy five".

This bill appears to be for the purpose of requiring Physicians or Surgeons not residents of this Territory but who come here for the purpose of practicing their professions temporarily to procure a license for such privilege and to register their diplomas with the county auditor of the county in which they propose to practice

E. C. Ferguson
Chairman.

Mr President.

Your Committee on Judiciary to whom was referred

C. B. 122

Entitled, "An Act to remove the Capitol of the Territory of Washington from Olympia to North Yakima." Have had the same under consideration and report the amendments hereto attached and ask their adoption. And after the adoption of said amendments recommend that the bill do pass.

The Citizens of Yakima have subscribed the amount of \$25,000 for public buildings together with the sum of \$3,000 to pay the expenses of removal of all Territorial offices and records to said town of North Yakima and have also deeded 80 acres of land inside the corporate limits of said town for the use of Territory and have deeded one large block in addition thereto 300 x 400 ft. inside of said town.

The committee would suggest that North Yakima is centrally located geographically for the whole Territory that it is considered that a removal will be made at some time to the Yakima valley that by a removal at this time valuable property will be acquired that will be for the permanent use of the Territory and its successor the State of Washington.

HB 249 Your Committee on Ways and Means to whom was referred
Have had the same under consideration and recommend
its passage.

Also,

HB 179 "Entitled an act for the regulation of Railroad Companies"
Have had the same under consideration and respectfully
report that the subject matter of the bill is one of great
importance, alike to the people of the Territory and the
railroad companies. The adoption of a law so searching
and severe in its intended operation, can be justified
only upon the ground of an imperative necessity.

That the interests of the public should be protected
from oppression extortion or unjust discrimination
no one will deny; but the enactment of laws that shall
give a supervising power almost unlimited, to
regulate, operate, condemn, construct, or even

appropriate cannot be justified except those interests
are injured, antagonized jeopardized. Experience
has demonstrated the wisdom of wise and judicious
regulations of railroad companies, and it has alike

demonstrated the injury, inconvenience, and
loss to the public of that kind of legislation prompted
by passion, hostility or ignorance. The situation of
each state and Territory is peculiar to itself,

and the necessity for a law that shall delegate the
management of a railway company to others than
those owning its property, should be very apparent.

For it should not be lost sight of that whatever is
injurious to a public corporation like railway corporations,
is injurious to the people, the relation of these bodies
to the communities through which they run are of a

practical business character and so closely connected with their development and prosperity, that a wrong done or permitted upon either side is disastrous to both.

There has been expended within Washington Territory within the last five years more than \$1500000 in the construction and equipment of railways. All of this money was obtained from abroad - not one dollar contributed from citizens of the Territory. Should no financial disaster ensue or blind hostility provoke, there will be spent within the next two years at least \$500000 more. It is not only the positive injury to the companies themselves and the matter of transportation generally that unwise hostile legislation brings in train, but it is the impression of

hostility and unfairness that capitalists reasonably argue exists among the people, and which will deter them from committing their money to the control of an unfriendly and unconscientious community. Your committee have reliable information of one enterprise that was in a forward state towards construction, that is now held in suspense, until it shall be ascertained whether the spirit of hostility that seems manifest in much of the proposed legislation of the Territory shall become its law. Those portions of the Territory that have secured railway advantages, ought not to make such demands as shall deter capital from investing in railways in such portions that are not thus favored.

Your Committee believe that the bill under consideration is premature is unnecessarily premature in many of its provisions, and confers powers that interfere with the vested rights of the owners of the property, and that under the existing state of things it would be of but very little practical utility or benefit. As an illustration of some of the extraordinary provisions of the bill, Sec. 18 provides that every Railroad Company shall, upon the application of any person or corporation, and for an annual rental of one dollar, permit him or them to construct, maintain and operate, an elevator upon the right of way of the company and compels the company, to build side tracks and switches to connect it with the main line. If such a thing can be done for the purpose of building and operating an elevator, it follows that the companies may be compelled to yield their right of way for stone manufactories or other buildings whose business may be convenience by their location adjoining the track. It is clearly the attempted exercise of an unconstitutional power - the arbitrary appropriation and taking of property without compensation and for private use.

The two principle lines of railway are the Northern Pacific Railroad company and the Oregon Railway and Navigation company. The former, incorporated by act of Congress derives its powers from the United States, and our Legislature

has no power to regulate or modify them; By section 13 of the act of incorporation it is provided as follows, that the directors of said company shall make an annual report of their proceedings and expenditures verified by the affidavit of the President and at least six of the directors, and they shall from time to time fix, determine and regulate the fares, tolls and charges to be received and paid for the transportation of persons and property on said road or any part thereof.

It certainly will not be questioned that Congress has given to the Company exclusive right to regulate the charges and fares for the transportation of persons and property. How, then, can the Territory of Washington assume to do the same thing, or to regulate in any manner its management and business? In the act of incorporation Congress vested to itself the power at "any time having due regard for the rights of said Northern Pacific Railroad Company to add to, alter, amend or repeal," the charter of the company, Congress therefore may, by appropriate legislation take from the company the power to regulate its fares and charges and enact that it shall be exercised by a tribunal to be created by themselves or the Territorial Legislature. But it is not in the power of any other body or department of the government, federal or territorial to interfere, much less to regulate and control.

The company will have in the course of a few months between five and six hundred miles of railway within the Territory. It will command the approach to tide water on Puget Sound, and in the judgment of your committee will be beyond the power of any Territorial legislative control, in the regulation of its charges and its general management. The Oregon Railway Navigation Company is created by the laws of the State of Oregon, and many miles of its railway pass through that state. Any law of Washington Territory can only affect it for any of its branch roads within the limits of the Territory. From all points in Eastern Washington and in all business between local points therein to the Oregon line the fares and charges might be regulated. But beyond the line the power of the company is absolute to impose their own terms. The result is that on two lines by which tide water and shipping points can only be reached one upon Puget Sound, the other at Portland are practically beyond ^{any} control of the Legislature, or any commission it may create, either in the matter of management or regulation of fares and freight charges. Again the effect that such legislation

And the appointment of a regulating Commission, may have upon purely local companies, is the matter for serious consideration. They might be subjected to their burdens, which the two principle and trunk lines would escape, thereby giving the stronger companies a manifest advantage over the weaker ones. Your Committee therefore believe that under the existing laws and conditions the bill would confer no power to "regulate railroad companies" as to freights and fares, except from one point to another within this Territory, and would not have that over the Northern Pacific Railroad. To impose a tax upon the people of the Territory for the sum of sixteen thousand dollars to secure a result so comparatively unimportant and which will inevitably result in antagonizing the Capital now willing to invest and repel it, is both unjust to the people and inimical to the best interests of the Territory.

But your Committee recognize the fact that in the growing and continually developing power of railroad corporations, some precautionary measure should be adopted by the Legislature that shall be a basis for future action, and that shall have power to gather such statistics and information as shall insure intelligent legislation upon the subject, and that shall to some extent act as an advisory power to the railroad companies operated in the Territory, and they recommend the passage of a bill creating a Commission with power to ascertain for the legal relations existing between the different railway companies operating within the Territory and the power and authority, and to what extent the Legislature can control them and each of them in their management and operation.

2. To receive any complaints that may be made by shippers or others, and to investigate them, and make such recommendation to the companies as each case in their judgment may justify; and to report all such complaints with their recommendation to the respective companies, and the action of the latter thereon to the next Regular legislative Assembly, or any special one that may be called.

3. To empower them by appropriate means to obtain any and all information from the officers, employees or books or records of any company operating within the Territory.

4. To report to such legislative assembly all the information they can acquire as to any and all matters connected with said companies, or any of them - embracing the questions of rates, general and special, peculiar and particular laws, Federal or Territorial applicable to each, the earnings and expenses of such companies respectively, the condition of their road bed and equipments and other matters that in the judgment

of said Commission may be necessary to ascertain for the public interest.

With the facts and opinions elicited from such reports Your Committee are satisfied that such intelligent legislation can be had, as will fully protect and subserve the interests of the people, will be just toward the Railroad Companies, and that will encourage and invite Capital to further invest in such enterprises within the Territory, instead of creating the apprehension that confiscation more or less is intended.

As a bill before the Council embodying substantially these suggestions it is in the power of the Legislative Assembly to secure its enactment at the ensuing session.

Your Committee report back to the Council, House Bill 179 with the recommendation that it do not pass.

Charles W. Young
Chairman
John McReary.
